

To all Judici E-Filing subscribers in Moultrie County,

As you know, electronic e-filing will be mandatory for civil case types in Illinois effective January 2018, through the eFileIL network of certified e-filing service providers (EFSPs):

We have been working on integrating Judici E-Filing with eFileIL for a while now. It involves some changes our e-filing users will appreciate, such as **linking our attorney accounts to firms** and creating **related user accounts which can file on behalf of attorneys**.

It is our goal to have Judici certified by January 1st. But if we fall short, neither we nor our e-filing courts want you to be scrambling to sign up with a certified provider. So we will be suspending our Judici E-Filing service in Moultrie County subscribers as of **December 1, 2017**, and we urge you to sign up with one of the service providers already certified.

**How do you sign up for eFileIL?** The list of certified providers is available at <http://efile.illinoiscourts.gov/service-providers.htm>. As will be the case with Judici, many providers offer free e-filing. Most also offer optional paid services with value-added features which distinguish them from other providers. **Judici's** primary value-adds will continue to be point-and-click filing on your cases (without having to search for them) as well as tight integration with our Courtlook service.

**This will not affect document access.** If you have a subscription to our Courtlook service, you will still be able to use all of its unique features, including:

- **Online case file document access** across all [participating courts](#), without any per-document charges
- **Calendar feeds to automatically sync all hearings** on one or more attorney schedules right into Outlook and other calendar tools.
- **Subscribe to Case option, to receive automatic e-mails** whenever the case is updated by the court.
- **Search across [75+ Illinois courts](#)** with one name or case search.

**What will happen once Judici is certified on eFileL:** we will reach out to you again to see if you want to reactivate our free e-filing service. If you choose to do so, you'll log in using the same eFileL ID and all of your eFileL firm, attorney, and user data will be available. We will even merge your eFileL filing history with the filings you made on Judici prior to eFileL. In other words, you can pick up where you left off.

While we hate to lose customers, we don't want to take any chance of not being there for you on January 1st. We'll be in touch once we're certified. In the meantime, if you have any questions about Courtlook or our e-filing plans, we urge you to visit <http://subscribersupport.judici.com/800> and sign up for one of our live webinars.
